

Yellow triangle in Device Manager under Ports

After install the PL-2303 Drive but the COM Port show yellow triangle, fix it as follow:

1. Find the COM Port:

Right click "My Computer"->Manage->Device Manager->Ports (COM & LPT), check "Prolific USB-to-Serial Comm Port", if no "yellow icon" means install successful or go to step 2 to fix the yellow icon.

2. Fix the "Yellow icon".

- Right click "Prolific USB-to-Serial Comm Port"->Update driver software

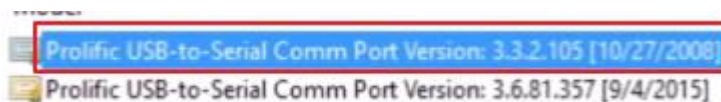

- Click "Browse my computer for driver software" option

→ Browse my computer for driver software
Locate and install driver software manually.

- Click "Let me pick from a list of device driver on my computer"

→ Let me pick from a list of device drivers on my computer
This list will show installed driver software compatible with the device, and all driver software in the same category as the device.

- Choose the "Version 3.3.2.105[10/27/2008]" and click "Next";

- Check the Port again and no yellow icon, means install successful.
